## Summary

I am a Ph.D. Candidate at UC Davis, interested in building low-level systems especially distributed platforms and everything related to infrastructure. Extremely passionate about C, C++ and problem-solving creatively. I am also interested in large scale systems and eager to learn how to build very large platforms and how they work.

## Education

**Ph.D. in Computer Science,** University of California, Davis, CA, USA **Sep 2018 – Present**

- **Advisor:** Prof, Mohammad Sadoghi(mo.sadoghi@ucdavis.edu)
- **Course Work:** Completed, **GPA 3.97**
- **Research Focus**: Distributed Fault Tolerant Protocols, BFT Consensus Algorithms, Secure Transaction Processing
- **Organizations:** Blockchain at Davis (BAD)

**Bachelor of Science in Computer Engineering,** Tehran Polytechnique, Tehran, Iran **Sep 2013 – Apr 2018**

- **GPA: 3.6**
- **Related Courses:**
  - Principles of Database Design
  - Data Structures and Algorithms
  - Data Storage and Information Retrieval
  - Design of Algorithms
  - Artificial Intelligence
  - Foundations of Matrix and Linear Algebra

## Selected Publications

- Suyash Gupta, Jelle Hellings, **Sajjad Rahnama**, Mohammad Sadoghi: Proof-of-Execution: Reaching Consensus through Fault-Tolerant Speculation. International Conference on Extending Database Technology **(EDBT 2021)**
- **Sajjad Rahnama**, Suyash Gupta, Jelle Hellings, Mohammad Sadoghi: ResilientDB: Global Scale Resilient Blockchain Fabric, Proceedings of the VLDB Endowment (**VLDB 2020**)[reproducibility badge]
- **Sajjad Rahnama**, Suyash Gupta, Thamir Qadah, Jelle Hellings, Mohammad Sadoghi: Scalable, Resilient and Configurable Permissioned Blockchain Fabric. Proceedings of the VLDB Endowment (**VLDB 2020**)
- **Sajjad Rahnama**, Suyash Gupta, Mohammad Sadoghi: Permissioned Blockchain Through the Looking Glass: Architectural and Implementation Lessons Learned, 2020 International Conference on Distributed Computing Systems (**ICDCS 2020**)

## Awards and Activities

- ★ **Best Teaching Assistant Award 2021 UC Davis** (ECS 265, ECS 165) [link]
- External Reviewer for conferences listed below:
  - *VLDB 2021*
  - *ICDE 2020, 2021*
  - *SIGMOD 2021*
  - *CIKM 2021*
  - *ICDCS 2020*

## Research and Projects

- **ResilientDB, A Permissioned Blockchain Fabric** **Jan 2019 - Present**
  - **Role:** Design, Architect, and Implementation
  - High-throughput Yielding Distributed ledger built upon scale-centric design principles to democratize and decentralize computation written in **C/C++**. [**website**][**source code**]
  - **Design and Architect:** re-architected and re-imagined modular system design from scratch that embeds parallelism and deep pipelining at every layer to fully exploit modern hardware and cloud infrastructure globally
  - **Core BFT Protocols:** Implementing modern BFT protocols such as Zyzzyva, PBFT, Hotstuff
  - **Web Dashboard:** Admin dashboard for fabric using **React/Node JS/Nginx/Influx**
- **FoundationDB A Distributed Unbundled Transactional Key Value Store** **June 2021 – September 2021**
  - Building a distributed fault-tolerant key-value store
  - Working on randomized deterministic testing framework
- **L-Store: A Real-time OLTP and OLAP System** **Feb 2020**
  - **Role:** Design and Implementation
  - lineage-based storage architecture, a contention-free update mechanism over a columnar storage
  - Implementing L-Store in Python from the scratch as TA for Database Design Course at UC Davis

## Professional Experience

**Software Engineer Internship at Apple,** Cupertino, California **June 2021 – September 2021**

- **FoundationDB Group:** Working distributed database and randomized correctness testing framework

**Senior Web Developer at Papion** [website], Tehran Iran **Feb 2015 – Sep 2018**

- **Role:** System Designer and Technical Consultant, Senior Backend and Frontend Developer
- Food and recipe social media labeled as "Sarashapz Papion" with more than a million users. (JavaScript, Angular, PHP, Docker, Laravel, MySQL, MongoDB, Influx DB, Redis, HTML5, CSS, SASS)

**Senior Web Developer at Fandogh Co.,** University Based Startup, Tehran, Iran **Jan 2015 – May 2016**

- **Role:** Senior Backend and Frontend Developer
- Under supervision and supported by Tehran Polytechnique university's Roshd institution
- A news platform for university organizations frontend and backend written with PHP, Laravel, Angular
- Food Reservation system for the students, web and mobile App frontend and backend

## Teaching Experience

**Teaching Assistant at University of California Davis, CA**

- ECS 265: Distributed Database Systems [Fall 2019, Fall 2020] [website]
- ECS 165: Database Systems [winter 2019] [website]

**Teaching Assistant at Tehran Polytechnique, Tehran**

- Principles of Programming [Fall 2014]
- Discrete Structures [Spring 2015] [By Mehran S. Fallah]

## Skills

**Technical Skills:** Distributed Databases – Multi threaded C++ system programming – Consensus Protocols – Fault Tolerance
**Programming:** C/C++ – Python – Java – JavaScript – Bash – PHP
**Services and Systems:** Google Cloud Platform - AWS - Docker- SQL - Linux and Bash - Git - LaTeX
